bachelard is neither a self confessed and tortured atheist like satre nor like chardin a heretic combining a belief in god with a proficiency in modern science but within the french context he is almost as important as they are because he has a pseudo religious

force without taking a stand on religion to define him as briefly as possible he is a philosopher with a professional training in the sciences who devoted most of the second phase of his career to promoting that aspect of human nature which often seems most inimical to science the poetic imagination j g weightman the new york times review of books

autodidacte adopté par la sorbonne bachelard fait songer à un faune rêveur et barbu invité au banquet des philosophes de quel bois se chauffent les poètes le charme de cette cosmogonie miniature tient dans l allure presque dansante d une écriture promenade où le feu sert de principal aliment à l imagination celle d un la fontaine qui aurait remplacé les animaux par les éléments

the last half of the twentieth century has seen the emergence of literary theory as a new discipline as with any body of scholarship various schools of thought exist and sometimes conflict within it i r makaryk has compiled a welcome guide to the field accessible and jargon free the encyclopedia of contemporary literary theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years some 170 scholars from around the world have contributed their expertise to this volume their work is organized into three parts in part i forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose the essays also discuss the uses and limitations of the various schools and the key issues they address part ii focuses on individual theorists it provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of part i this second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context part iii deals with the vocabulary of literary theory it identifies significant complex terms places them in context and explains their origins and use accessibility is a key feature of the work by avoiding jargon providing mini bibliographies and cross referencing throughout makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture

architecture and fire develops a conceptual reassessment of architectural conservation through the study of the intimate relationship between architecture and fire stamatis zografos expands on the general agreement among many theorists that the primitive hut was erected around fire locating fire as the first memory of architecture at the very beginning of architectural evolution following the introduction zografos analyses the archive and the renewed interest in the study of archives through the psychoanalysis of jacques

derrida he moves on to explore the ambivalent nature of fire employing the conflicting philosophies of gaston bachelard and henri bergson to do so before discussing architectural conservation and the relationship between listed buildings the function of archives and the preservation of memories from the past the following chapter investigates how architecture evolves by absorbing and accommodating fire while the penultimate chapter examines the critical moment of architectural evolution the destruction of buildings by fire with a focus on the tragic disaster at london s grenfell tower in 2017 zografos concludes with thoughts on freud s drive theory he argues the practice of architectural conservation is an expression of the life drive and a simultaneous repression of the death drive which suggests controlled destruction should be an integral part of the conservation agenda architecture and fire is founded in new interdisciplinary research navigating across the boundaries of architecture conservation archival theory classical mythology evolutionary theory thermodynamics philosophy and psychoanalysis it will be of interest to readers working in and around these disciplines

elizabeth harrower critical essays is the first sustained study of this acclaimed australian author it brings together two celebrated novelists and ten noted critics of australian literature to consider the legacy and continuing importance of this major literary figure the essays examine all of harrower s published fiction from her first short story to the long delayed publication of *In Certain Circles* in 2014 together they provide an wide ranging introduction to the extraordinary imaginative and intellectual project of her work they explore her engagement with twentieth century history and post war society with modernism and modernity and with the personal impacts of mass media technology and industry they demonstrate her grasp of the ethical and philosophical challenges confronting her readers and characters in late modernity as seen from a number of distinctive vantage points including the harbourside mansions and commercial centres of post war sydney the suburbs of industrial newcastle and the bed sitters of expatriate london in the 1960s together they offer new insights into an australian writer at the crossroads of modernism and postmodernism inviting readers to read and re engage with harrower s work in a new light

the publication of *fragments of a poetics of fire* is a milestone in bachelard studies that will influence the way we think about his themes method for a long time to come dissatisfied with his earlier attempt to come to terms with the element of fire in the *psychoanalysis of fire* 1937 bachelard returned to this theme in the book he was working on at the time of his death in 1962 because

of delays in eventually the abandonment of a projected edition of his complete works these fragments of a poetics of fire remained unpublished their very existence unknown to all but a handful of bachelard's readers the author's daughter suzanne bachelard edited them for separate publication over a quarter century later in 1988 for the first time we have an insight into the way bachelard constructed his remarkable books miss bachelard's introduction extensive notes are an indispensable guide to the workings of his mind as he shapes a meandering series of observations on the phoenix prometheus empedocles into a coherent engaging structure that respects the fluidity openness of a living image the powerful image of fire

what are the links between environment and world view topophilia the affective bond between people and place is the primary theme of this book that examines environmental perceptions and values at different levels the species the group and the individual yi fu tuan holds culture and environment and topophilia and environment as distinct in order to show how they mutually contribute to the formation of values topophilia examines the search for environment in the city suburb countryside and wilderness from a dialectical perspective distinguishes different types of environmental experience and describes their character

comprehensive overview of the entire spectrum of works by one of twentieth century france's most original thinkers gaston bachelard one of twentieth century france's most original thinkers is known by english language readers primarily as the author of the poetics of space and several other books on the imagination but he made significant contributions to the philosophy and history of science in this book roch c smith provides a comprehensive introduction to bachelard's work demonstrating how his writings on the literary imagination can be better understood in the context of his exploration of how knowledge works in science after an overview of bachelard's writings on the scientific mind as it was transformed by relativity quantum physics and modern chemistry smith examines bachelard's works on the imagination in light of particular intellectual values bachelard derived from science his trajectory from science to a specifically literary imagination is traced by recognizing his concern with what science teaches about how we know and his increasing preoccupation with questions of being when dealing with poetic imagery smith also explores the material and dynamic imagination associated with the four elements fire water air and earth and the phenomenology of creative imagination in bachelard's poetics of space his poetics of reverie and in the fragments of poetics of fire

fire is a fearsome constant in the america west as the author david j strohmaier notes whether we have tended a campfire along oregon s deschutes river in march engaged the advancing front of a great basin wildfire in the torrid heat of august or watched fire settle into the subdued smoldering leaf piles of october all of our lives to one degree or another are bracketed by fire in the seasons of fire strohmaier effectively blends nature writing personal essay and philosophical analysis as he deliberately crosses disciplinary boundaries he discusses the moral dimensions of fire not only whether fires are good bad or indifferent phenomena but also how fire more generally understood shapes meaning for human life the consequences of discussing the moral side of fire speak directly to the contours of the human soul and to our sense of our place on the land strohmaier a long term firefighter himself includes accurate and sometimes gut wrenching descriptions of the firefighter s experience

this volume which collects northrop frye s writings on the theory of literary criticism from the middle period of his career includes one of frye s own favourites the critical path 1971 a highly important marker of frye s career the critical path openly addresses topics that he had previously been reluctant to discuss as fully including the importance of literature to society the responsibilities of critics and the deeper rationales for studying literature filled with insightful texts that indicate his transition from literary critic to a theorist of language myth and human culture this edition helps to illuminate many of the ideas and arguments that would appear later in the great code and words with power accompanied by the rigorous scholarship for which the series is renowned this is another valuable contribution to literary criticism and theory

for seven years from 1956 to 1962 a young french artist electrified the european art world with visual conceptual and performance art works far ahead of their time his rise was wildly celebrated by some as the appearance of a prophetic genius and derisively dismissed by others as scandalous nonsense his monochrome paintings body art works fire paintings conceptual exhibitions and music and monumental public space works threatened to upend the very categories of art in both europe and america indeed after his tragically premature death in 1962 some of the most far reaching transformations in contemporary art would follow directly in his wake but by the 1970s his reputation seemed headed for oblivion until in 1977 a young classics scholar at rice university thomas mcevilley proposed klein for a retrospective show to dominique demenil then director of the rice gallery and wrote several texts about klein that would transform our understanding of yves klein s aesthetics the project grew to involve major institutions resulting in 1982 with

exhibitions in houston new york paris and chicago virtually overnight yves klein s art reentered the art canon coincidentally the career of an important critic was launched yves the provocateur collects those writings of thomas mcevilley which rejuvenated klein s stature and hitherto were only available in journals and exhibition catalogues in effect it provides the skeleton key to clearly examine the full dimensions of klein s accomplishment in two opening essays mcevilley briefly surveys and places klein s art into context then in the centerpiece essay which amounts to a miniature critical biography bearing all the best features of a novella he traces the formative and crucial events in klein s life finally he describes klein s intellectual development demonstrating how klein embedded and parodied in his work the philosophical system of a particular form of rosicrucianism
